

Birlasoft provides Oracle Centerpiece ES COA Discovery & Implementation for Fortune 500 Aviation firm

CHALLENGES

The Client wanted to implement Enterprise Standards chart of accounts (ES COA) across the organization. There were challenges with Segments Mapping as Businesses had not frozen ES Segment values based on ES COA, Segment values were not in sync between DRM Hub (source for all values) and Oracle EBS. There were concerns around data authenticity as misclassified accounts and other accounts present in the database were not being used / set up in Oracle. The Client wanted the exercise to be completed within an aggressive deadline of 1 month.

SOLUTIONS

Oracle Centerpiece ES COA Discovery & Implementation

- Proactive clarification on dependencies, Environment setups (DBA related) required for starting ePrentise run
- Frozen assumptions based on ES Mapping rule to complete mapping for unclarified values
- Leverages Birlasoft's strong relationship with ePrentise for Quick turnaround on product bug fixes and issues

IMPACT

400+ INTEGRATION
Of finance process with
legacy and 3rd party

40 MEMBER TEAM
At peak during
implementation
